

# BLOCKCHAIN

Where the trust relies on the technology

## | Grant Thornton Luxembourg Technology Hub

Grant Thornton Luxembourg together with its affiliate ***Finside Advisers*** are pleased to unveil a new portfolio of consultancy offerings related to **Blockchain Technologies** and **Cybersecurity** dedicated to financial services clients.

**Blockchain** – Currently facing one of the following challenges?

- What is Blockchain and is the Blockchain the right solution to adopt in view of my business environment?
- If so, how can I take advantage of this technology for my business?
- What is the evolution of the Blockchain and is it mature enough to replace and / or connect my legacy systems?

Then take advantage of our tailored offer:

- Our **customised awareness trainings** targeted for specific audiences – novices / practitioners / experts.
- Our assistance and guidance on Blockchain Feasibility Study and Strategy Development services, Blockchain roadmap co-elaboration and implementation.

**Cybersecurity** – Addressing 3 key questions

- Is my company protected against hackers and threats?
- Is my company investing appropriately in Cybersecurity?
- What is the response time in my company to react against a cyber-attack in my company?

Our joined Cybersecurity/Business Risk experts team up to design IT Governance Solutions, Data Privacy Assessments, Risk Management and /or CISO as a service, in addition to preventive services such as Penetration Tests, IT forensic, Incident Response Management and advice on Cybersecurity software solutions.

Through the Grant Thornton network, Grant Thornton Luxembourg has access to a multidisciplinary Blockchain Team composed of lawyers and IT developers specialized in Blockchain composed of state-of-art consultants an entrepreneurial spirit.

At Grant Thornton, we are enablers who connect with your issues to co-elaborate your future.
